**INUP Familiarization Workshop on “Nanofabrication Technologies” at IIT Roorkee, Uttarakhand  
27-28 April 2017**

Dear Sir/Madam,

We are pleased to announce that, jointly with INUP@IISc Bangalore, IIT Roorkee is organizing an INUP-sponsored Workshop entitled, “**INUP Familiarization Workshop on Nanofabrication Technologies**” at **IIT Roorkee, Uttarakhand, on 27-28 April 2017**.

This will be an event where faculty members from IISc-Bangalore, IIT Bombay and IIT Roorkee, work together to spread among researchers in the **Uttarakhand**, awareness of the expertise and competence in Nanoelectronics available at the Centre for Excellence in Nanoelectronics established at IISc, Bangalore.

This state-of-the-art national facility at IISc will be made available through the INUP to academic researchers in India for conducting research projects in the broad field of Nanoelectronics. Thus, the Workshop is expected to lead to many new R&D initiatives and project proposals to INUP from Universities/Institutions.

The Workshop will have technical features designed to benefit PG/Research level students and faculty members. During the various lectures/presentations, participants will have opportunity to obtain clarification on various aspects of Nanoelectronics, such as how to fabricate a device that has been designed, how to test devices, etc.

To encourage wider participation, the organizing committee has decided not to charge any **Registration Fees**. However, due to limited capacity, participants will be registered on a first come, first served basis. Limited travel grant for participants will also be available for travel by Bus/Train (AC 3-Tier) by the shortest route. Expenses for local conveyance will *not* be reimbursable.

**Registration is open.**

**Important date: Last date for Registration (via weblink): 21 March, 2017**
